Les invitan a la conferencia:

Bone histomorphometry and osteoimmunology

By Prof. **Peter Pietschmann**

Department of Pathophysiology and Allergy Research, Center of
Pathophysiology, Infectiology and Immunology, Medical University
Vienna, Austria

Fecha: [Martes 3 de diciembre de 2013](#)

Hora: [16.30 horas](#)

Lugar: [Aula Krebs. Facultad de Farmacia](#)

About the Speaker:

Prof. Pietschmann has been trained as a Medical Specialist of Internal Medicine, Rheumatology and Pathophysiology. His primary research competence is in the field of osteoporosis and other bone diseases with a special focus on osteoimmunology. He holds an Associate Professorship for Internal Medicine and Pathophysiology. Since 1999, he is the head of a research group which studies the biology and pathophysiology of bone by molecular, cellular and translational approaches *in vivo* and *in vitro*. Since 2006, he is deputy head of the Department of Pathophysiology and Allergy Research, and since 2007, he is the head of the Division of Cellular and Molecular Pathophysiology. He published more than 180 papers in peer reviewed international journals.
