

UNIVERSIDAD
DE GRANADA

El Máster Oficial en Nutrición Humana y la Facultad de Farmacia

Les invitan a la conferencia:

“Fisiopatología ósea y Osteoimmunología”

Por el Prof. **Peter Pietschmann**

**Department of Pathophysiology and Allergy Research
Medical University of Vienna**

Fecha: 02 de febrero de 2018
Hora: 10:30 horas
Lugar: Salón de Grados - Facultad de Farmacia
TFG: 1 punto

Sobre el ponente:

Prof. Pietschmann has been trained as a Medical Specialist of Internal Medicine, Rheumatology and Pathophysiology.

His primary research competence is in the field of osteoporosis and other bone diseases with a special focus on osteoimmunology.

Since 1999, he is the head of a research group which studies the biology and pathophysiology of bone by molecular, cellular and translational approaches in vivo and in vitro.

Since 2006, he is deputy head of the Department of Pathophysiology and Allergy Research, and since 2007, he is the head of the Division of Cellular and Molecular Pathophysiology.

He published more than 220 papers in peer reviewed international journals.
